NIH ❧ Library News

April/May 1996

Library Open House

Do you want to access indexes to the journal literature, a table of contents alerting service and other Library resources from your desk top? Find out how the Library is bringing information closer during National Library Week. From April 15–18 the NIH Library will hold Open Houses and staff Exhibits in Buildings around the NIH Campus. **See the back of this issue for a schedule of events and their locations.**

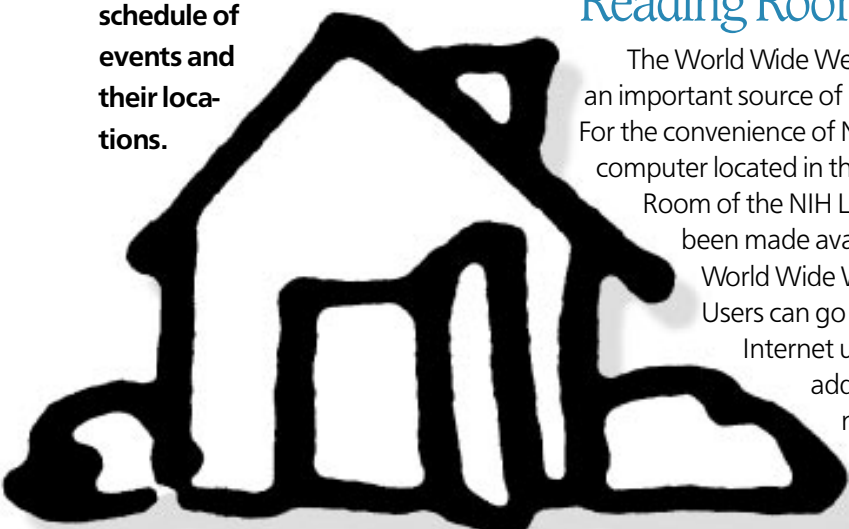

During the week Library staff will demonstrate

➠ Internet Grateful Med
➠ Reference management software packages, Endnote Plus and Reference Manager
➠ Biological Abstracts, Embase, and PsycInfo.

NIH staff may register for

➠ Library Cards
➠ Document Delivery through Grateful Med's Loansome Doc
➠ Email notification of new Library Services through the Library's Listserv

and, as a special service during the Open House, Library staff will set up Table Of Contents profiles in Carl UnCover for NIH staff.

NIH staff who sign up for the Library's Listserv at one of the week's events will be entered in a raffle for a gift certificate at Border's Books.

World Wide Web Access in Library Reading Room

The World Wide Web is becoming an important source of information. For the convenience of NIH staff a computer located in the Reading Room of the NIH Library has been made available for World Wide Web access. Users can go to sites on the Internet using specific addresses, connect through links in the Library's home page, or use one of the many key word search engines to find information on the Web. NIH staff are invited to use the terminal when visiting the Library. Comments on the arrangement are welcome.

Search Medline On the World Wide Web

The National Library of Medicine has developed a World Wide Web search interface for its databases. Called Internet Grateful Med (IGM), the software is compatible with Netscape Navigator for PC's, Macintosh and Unix computers, NCSA X Mosaic, and MacWeb for the Mac. The Web address is

http://igm.nlm.nih.gov

NIH staff can search Medline with IGM. Other National Library of Medicine databases will be added later. Users will need their Medline Code and Password. Library cardholders may call 496-1156 if they do not yet have one.

New Classes

Noon Seminars are conducted by the Library's Reference staff Mondays and Thursdays at noon in the Library's Lower Level Training Room.

Internet Grateful Med

On April 25, May 16 and June 6 the NIH Library will offer sessions on searching Medline using the National Library of Medicine's new search software designed for the World Wide Web.

Biological Abstracts, Embase, PsycInfo

Seminars on April 22, May 20, and June 17 will offer tips on searching these databases using software developed by Ovid, and demonstrate how to download the client software needed to access them.

Find a complete Instructional Calendar on the NIH Library's Home Page (http://libwww.ncrr.nih.gov) under **News & Calendar,** on the back of this issue, or by calling 496-1156.

NIH ❧ Library Open House

April 15 – 18, 1996

April

15 Library Exhibit
Natcher Building 35
Cafeteria
10am to 2pm

16 Library Exhibit
Building 49 Lobby
10am to 2pm

17 Open House
Executive Plaza South
Classroom 4
10am to 2pm

18 Open House
NIH Library
Building 10
Lower Level Training Room
10am to 2pm

Open Houses

The Open Houses will feature demonstrations of Ovid databases (Biological Abstracts, Embase, PsycInfo), Internet Grateful Med, and reference management software (Endnote Plus and Reference Manager).

As a special service for users during National Library Week, at the Open Houses and Exhibits, Library staff will register users for Carl UnCover, complete their profile, and select journals of the user's choice for automatic email delivery of tables of contents.

Exhibits

Exhibits during National Library Week will feature electronic resources and document delivery. The Library's World Wide Web Home Page will be on display. Visitors will also be able to register for Library Cards, Medline Codes, and document delivery through Grateful Med's Loansome Doc feature. Library staff will also, as a special service during this week only, register NIH staff for UnCover Reveal's email Table of Contents service.

The Library has its own Listserv. NIH staff can learn of new services and resources by enrolling in the Listserv. Those signing up this week for the Listserv will be entered in a raffle for a $20 gift certificate to Borders Books.

Noon Seminars for NIH staff take place on Mondays and Thursdays, 12 to 1 p.m. in the Library, Building 10, Lower Level Training Room. Registration is not required. Questions? Call 496-1156.
